

THE WORD OF EDITOR-IN-CHIEF

It is a great pleasure to inform the associates and readers of our journal Nuclear Technology & Radiation Protection that all the articles published in the journal will be cited at the web sites ISI Web of Knowledge and Science Citation Index Expanded, starting from the issue to be released in June this year. The fact that the journal has been included in the mentioned ISI lists presents not only the meritorious appraisal of the published papers but also the new possibility of augmenting the journal influence on the scientific community in the fields of nuclear power, research reactors, accelerators, nuclear materials, waste management, radiation measurements, and environmental problems.

In response to the increased interest for publishing papers in Nuclear Technology & Radiation Protection, the Editorial Board of the journal plans to commence releasing three issues per year starting in 2009, with the efficient high-quality reviewing process of received manuscripts and the fast publishing of the accepted ones. Please, note that the new web address of the journal is <http://ntrp.vinca.rs>, and the new e-mail address of the Editor-in Chief is simovicr@vinca.rs.

Yours truly,

Rodoljub Simović
